¹MATH 191 (Calculus I) may be taken if you have already taken Precalculus Algebra and Trigonometry at the college level or have a math ACT score of 24 or higher. MATH 125 (4 credits) may be taken instead of MATH 122 & 123 to prepare for MATH 191. Ask your advisor which math courses are best for you.

²Only MATH 215 fulfills general education requirements in area IN-4. MATH 192 counts toward the B.A. in Chemistry, but MATH 215 must also be taken to fulfill general education requirements for graduation.

³CHEM Elective: Ask your advisor about the chemistry courses offered during your junior and senior years. Physical Chem. II & Inorganic Chem. will be offered **every other year** during the same winter semester, while Instr. Analysis & Adv. Org. Chem. will be offered **every other year** in the alternate fall and winter semester. If you wish to take Biochemistry I as your elective, it is offered during the fall semester **every year**.

⁴PHYS 221-224 may be substituted.
